Professional Summary

React Developer with a passion for crafting responsive, high-performance web applications and a keen **interest** in building end-to-end solutions using the **MERN** stack. Skilled at turning ideas into scalable, user-focused products, I thrive in collaborative environments where innovation meets execution. With sharp attention to detail, strong problem-solving skills, and effective time management, I aim to deliver applications that are not only functional but also engaging, efficient, and future-ready.

Technical Skills

Languages	JavaScript, Nodejs, ExpressJs, MongoDB, Go lang basic
Front End	HTML 5, CSS 3 with Bootstrap 4 and Tailwind CSS, React JS, Redux Toolkit
Version Control System	Git with GitHub
Other Tools	Visual Studio Code, Postman
Software Development Processes (SDLC)	Agile Methodology

Work Experience

Software Engineer

Prodhee Technologies PVT.LTD.

Bengaluru(July 2025-Present)

1. Training & Learning Portal

Front End Technologies	JavaScript, React-JS, Bootstrap, Tailwind CSS with HTML 5, CSS 3, Redux
Team Size	8

Project Description:

Learning Management System (LMS) Application – Currently developing a responsive, scalable LMS platform that enables course creation, user enrollment, progress tracking, and multimedia content delivery. Building dynamic UI components using React.js, Redux Toolkit, and Tailwind CSS to ensure seamless navigation and optimal performance across devices. Integrating APIs with Axios for real-time data, implementing Chart.js for analytics visualization, and embedding React Player for video lectures. Collaborating with cross-functional teams to deliver a user-friendly, high-performance learning experience aligned with business goals.

Roles and Responsibilities:

- Designing and developing responsive, scalable UI components using React.js, Redux Toolkit, and Tailwind CSS.
- Implementing Chart.js for interactive data visualization and analytics.
- Embedding React Player for video-based course content.
- Collaborating with designers, backend developers, and QA teams in an Agile/Scrum environment.
- Performing code reviews, debugging, and optimization for better performance and maintainability.
- Managing version control and code integration through Git and GitHub.

Associate Software Engineer
Test Yantra Software Solutions India Pvt. Ltd,
Bengaluru. (APRIL 2023 – JULY 2025)

1. Internal Application Revamp & Product Development

Front End Technologies	HTML 5, CSS 3, JavaScript, MDS Story Book, React JS
Team Size	8

Project Description:

- Revamped a core internal application using React.js and Tailwind CSS to improve usability, accessibility, and performance. Delivered a responsive, intuitive UI aligned with brand guidelines, resulting in increased user adoption and faster task completion.

Roles and Responsibilities:

- Gathering the requirements, analysis, design & development of the project.
- Revamped the UI of a core internal application, enhancing usability and performance.
- Migrated project from Mosaic CSS Library to MDS CSS Library.
- And involved in bug fixing as well as resolved accessibility problems.
- Collaborated with QA and backend teams within an Agile/Scrum environment.
- Managing version control and code integration through Git and GitHub.

Declaration
